great game. mp works just fine. Neighbor is stylish, spooky, and very fun! It runs a bit on the short side, but I had more fun spending two hours playing Neighbor than I would have had watching a movie.. Very juicy for a cheap pizza. But grade is 4,5/5, as I cannot taste the salami.. Not very long and the controls are sometimes fussy, but otherwise completely joyful.. A rerelease of one of the best adventure games ever made, definitely worth checking out!. i like it except for the timer . Time Crisis meets Super Hot. Rail mode is the only way to play; touch pad locomotion makes it too easy imo. Great sound track that really hypes up the gameplay (I normally turn music off in games but this one the music adds so much (with the visuals going to the metre of the music, feels like being at a concert with the visuals). So far this is my favourite single player shooter experience and puts Arizona Sunshine to shame. +100 points to the Devs for actively updating the game!. A tough damn good horizontal scrolling shoot em up in the best traditions of Gradius/R-type etc. Thumping amazing soundtrack, really good visuals and tight gameplay. Nice special weapons, the action is hectic but not completely bullet hell which I appreciate.

Love this game, always play with the volume turned up to 11 :). Good fo rachievemnts lol

What I liked, it has tractors, it has farm animals.

What i disliked, it didnt work.

I read the reviews and thought it's non farming folk moaning because they dont know what to do.

I have been in farming I know what to do, just cant get the wretched game to do it.

Leave well alone.

If you want to farm its cheaper and less stressful to get an allotment!. Maybe it gets better later on but the maps present no interesting choices or skill.. promblem with No opponents

Couldn\u00b4t find a worth opponent

wfftt.. :-V

cant not work loading..... I've beaten this game 3 times already, and each time the combat continues to suprise and delight me. I love the sound track, animations, and quirky little things to discover. Last playthrough I even found the illuminati. <3

Highly recomend!. As a long time nascar fan and player of almost every yearly game since Nascar Racing on old school windows, I just can't recommend this one.

Graphically it's ok, but its the physics and controls that kill it entirely for me. While I know this is more arcade like than sim, the controls just...don't feel natural if that makes any sense. Cars feel far too tight, unless you want the car setup so it spins out the second you touch the control stick.

Dirt racing felt good, but the braking and steering of oval tracks/road course cars killed it for me. Refunded it. Maybe if it goes on sale I will give it another look, but if you didn't much care for Nascar heat 2, you won't find too much here to change your opinion. Not worth the full price in my opinion.. A fun solitaire game with lots of power ups.. dis game is a badd game, do not play if "have a good time" is your criteria

othert than that the game is still bad

2/7. Very good. Some frustrating mechanics at times, but a very good 3 dimensional puzzle game.. Face Noir won't probably be remembered as a gem, or a masterpiece of the graphic adventure genre. Nevertheless, it's a game I'd recommend (at least to all the hardcore graphic adventure fans out there) because even with all its flaws, Face Noir feels like a game with something to say. I didn't like the puzzles very much, they are either very easy or very hard to solve, due to a massive use of pixel hunting, but I really enjoyed the story. I think the guys at Mad Orange made an awesome job at rcreating the 1930s atmosphere, and while you play you really want to know how the plot will evolve. I can't wait for Part 2 to know how the story will end. Gameplay-wise they could have done something more, that's obvious, but still, it's just a small indie team. For what concerns the graphics, some of the environments are really beautiful to look at, especially if you think that it's just an indie production, but the characters models feel a little outdated.

Give this game a chance, it could surprise you.
